

Access Schedules

Access Schedules are made up of a door location and a time frame. For example...Access Schedule A might be Door #100 able to be unlocked 24hrs per day, while Access Schedule B might be Door #100 able to be unlocked from 8-5 only on weekdays.

| Access Sched | Door # | Unlocked Period | Locked Period | Normal Access Time | Special Access Time | Alarm if propped open? | Alarm if Opened w/ key? |
|--------------|-------------|-----------------|-----------------|--------------------|---------------------|------------------------|-------------------------|
| Ex 1 | Example 100 | Never | Always | 8-5 M-F | 24 hrs | > 3 minutes | Yes |
| Ex 2 | Example 101 | 8-5 M-F | All other hours | 24 hrs | none | >10 minutes | No |
